Stocks end lower as profit-booking continues

Stocks closed lower yesterday as a profit-booking tendency continues to prevail among investors following a three-day gaining streak. DSEX, the benchmark index of the Dhaka Stock Exchange, dropped 5.65 points, or 0.10 per cent, to close at 5,511.36 yesterday.

Turnover, an important indicator of the market, plunged 17.5 per cent to Tk 1,159 crore. Market analysts attributed the decline to the investors' profit-booking tendency. As most stocks rose 15 per cent to 20 per cent, investors are taking

their profits. Besides, investors got back their confidence in the market and started investing again, said a top official of a stock brokerage firm. Investors are also rearranging their portfolios considering performance of the listed companies.

Most of the insurance companies' stocks advanced yesterday even though they are overvalued, he added. At the DSE, 105 stocks advanced, 179 declined and 70 remained unchanged. Sonar Bangla Insurance topped the gainers list, rising 9.90 per cent, followed by Prime Insurance, Takaful Insurance, Standard Insurance, and Malek Spinning.

Beximco traded the most with Tk 164 crore followed by LafargeHolcim Bangladesh, Robi

BSEC allows foreign investors to be MF's sponsor

The Bangladesh Securities and Exchange Commission on Monday allowed foreign investors to be sponsors of mutual funds. The decision came at a commission meeting presided over by its chairman Shibli Rubayat-Ul-Islam, a BSEC press release said.

According to the directive, any foreign company, either public or private, must be eligible to be a sponsor of any mutual fund either single or jointly with any local eligible sponsor. Each foreign company, being a sponsor of mutual fund, either single or jointly with any local eligible sponsor, must meet the requirements to create a trust as per the Trust Act, 1882.

However, in the case of joint sponsor, local sponsor may be appointed to create the trust and other necessary activities in this regard. No foreign company as a sponsor of mutual fund can subscribe more than 25 per cent of the fund size, it said.

The regulator at the meeting also decided to appoint a special auditor to assess financial statements and activities of Fareast Finance and Investment Limited. The commission on the day also approved BSEC (Capital Market Stabilisation Fund), 2021.

Industry News

RMG owners demand tax exemption on fibre, 1% duty on spare parts imports

With an aim to increase production of non-cotton garment products to meet global challenges, the country's readymade garments (RMG) owners have demanded a tax exemption in the next budget

on the import of all types of fibre used in the country's spinning and textile mills. At the same time, like the tariff on capital machinery, they have demanded a 1% duty on the import of spare parts used in textile and RMG factories from the next budget.

At present, there is zero duty on imported cotton and 15% duty on import of non-cotton fiber used as raw materials for the RMG sector. Although they pay 1% duty on imported capital equipment, they have to pay 28% to 104% tax on the import of spare parts.

In order to tackle the crises created by the ongoing coronavirus pandemic and to survive in a competitive market, three organisations in the textile and garments sector — Bangladesh Garments Manufacturers and Exporters Association (BGMEA), Bangladesh Knitwear Manufacturers and Exporters Association (BKMEA) and the Bangladesh Textile Mills Association (BTMA) — raised the demands in a letter sent to Finance Minister AHM Mustafa Kamal on Monday.

In order to make up the losses inflicted by the pandemic, the government already provided a Tk7,500 crore stimulus package for the export-oriented RMG sector in 2020.

According to the letter from the three organisations, the country's garment industry has come a long way due to duty free access to cotton imports. Non-cotton yarn imports are subject to a 15% duty. Entrepreneurs are now interested to

produce high value non-cotton yarn garments, considering global demand.

Reopened factories help exports rise to \$3.1bn in April

Bangladesh's export earnings climbed up to \$3,134.38 million in April, 502.75% higher than the same month last year. Export came down to only \$520.01 million in April 2020 – the lowest in the history of Bangladesh – due to the general holiday and the closure of factories in Bangladesh amid Covid-19 outbreak.

Export earnings rose last month, thanks to the shipments of garment products. Besides, jute and jute goods, agricultural products, leather and leather goods, engineering goods, frozen and live fish and the pharmaceutical sector also experienced a good growth on the tenth month of the current fiscal year.

In April 2019, Bangladesh's export worth was \$3.06 billion. Compared to that, export has increased by 1.72% in April this year. However, the export earnings still remain 6.44% away from the monthly strategic target of \$3.35 billion for April 2020-21.

Red-hot US recovery boosts RMG hope

The strong performance of the US economy fuelled by the Biden administration's relief cheques to the people and the ongoing rapid vaccination holds promises for the recovery of Bangladesh's garment shipment to its single largest export destination.

US economic growth accelerated in the first quarter as the government gave money to mostly lower-income households, fueling consumer spending and setting the course for what is expected to be the strongest performance this year in nearly four decades.

GDP increased at a 6.4 per cent annualised rate in the January to March quarter, the biggest first-quarter expansion since 1984. That followed a 4.3 per cent growth rate in the fourth quarter, according to Reuters. The ongoing vaccination has boosted the confidence of consumers as they are dining out, shopping and going on holidays. Retailers have reopened stores. As a result, garment suppliers in Bangladesh are receiving a higher number of queries for US-bound work orders.

Of the total garment export from Envoy Textile, 60 per cent are destined for the US. American retailers and brands buy 75 per cent of the fabrics shipped. The sales of textile by the group were \$110 million last year. Bangladesh exported textile and garment worth \$1.04 billion between January and February of 2021, down 11.80 per cent year-on-year, according to data from the US Department of Commerce.

It stood at \$4.03 billion in the July-March period of the current fiscal year, slightly down from \$4.37 billion recorded during the same period a year ago, data from the Export Promotion Bureau of Bangladesh showed. The demand for casual wear is higher than formal clothing and high-end value-added suits as people spend more time indoors because of the pandemic.

Ceramic makers seek low-cost funds

The country's ceramic manufacturers have demanded low-cost funds on easy terms for payment of their workers' salaries, allowances and Eid bonuses. The trade body made the call in their budget proposals that it handed over to the finance ministry on April 28.

Businesses have so far invested Tk 9,000 crore in the sector, which directly employs 50,000 workers and indirectly over 500,000. The country has 68 ceramic factories that made export and import-alternative products, including tableware, tiles and sanitary ware, worth around Tk 6,000 crore in 2019.

Moreover, factory owners are also failing to clear bank loan instalments on a regular basis, it added. There is a lot of pressure on the industry owners to pay the salaries, allowances and bonuses of the workers and employees for the upcoming Eid-ul-Fitr.

MFS industry swells riding on low-income groups

Mobile financial services have gained immense popularity in Bangladesh, particularly among lower-income groups, but the charge to withdraw funds has remained almost unchanged since the inception of the digital platform in 2011. As a result, most clients have to fork out Tk 18.50 to withdraw Tk 1,000 from their accounts. It was the same when the service was rolled out.

Although some MFS providers have recently slashed the charge to Tk 14, users and analysts say the rate is still higher, and a further reduction will benefit the poor, who avail the money withdrawal service through mobile phones most. Experts say that the fund withdrawal charge of Tk 14 to Tk 18.50 is illogical as such type of high charge is rare while settling small financial transactions in the banking sector.

NBR moves to settle short shipment issue of 30,000 export consignments

The National Board of Revenue has taken a move to resolve the

problem related to 30,000 unsettled export consignments with short shipment to facilitate exporters getting cash incentives and other services from the Bangladesh Bank.

Exporters are facing problems in availing cash incentives against the short shipment under which the actual volume of export goods is less than that of the EXP system declared export products for shipment.

Customs officials said that the revenue board had recently asked the Customs House, Chattogram to settle the consignments with short shipment under the Asycuda World system as soon as possible. The problem was created as the information of short shipment was not inserted in the Asycuda World system of the NBR due to lack of options despite interconnectivity between the Bangladesh Bank's online EXP system and the Asycuda World System.

In many cases, the volume of export may be less than declaration in EXP system. But the system cannot amend the data due to lack of options. Bangladesh Bank while cross checking export proceeds realisation found gap in data between declared and actual export.

Lafarge ordered to pay gas bill dues of Tk 902m

LafargeHolcim Bangladesh Ltd, multinational cement manufacturing company, will have to pay an outstanding gas bill of around Tk 902.50 million to state-run Jalalabad Gas Transmission and Distribution Systems Ltd (JGTDSL) in accordance with a court's verdict. It will have to pay Tk 100 million along with regular bills within one month and the remaining amount will have to be paid in quarterly instalments of Tk 100 million.

The company will pay the pending bills in line with a verdict of the Appellate Division of the Supreme Court, according to the company statement posted on the Dhaka Stock Exchange website on Monday.

LafargeHolcim will have to pay the gas bills as per the tariff set by Bangladesh Energy Regulatory Commission (BERC) and the JGTDSL will maintain supplying gas to the company as per the terms of Gas Sales Agreement (GSA). Sources said the cement company has been consuming around 16 million cubic feet per day (mmcf) of gas in total of which it consumes 12.30 mmcf to run boiler for cement production and remaining 3.70 mmcf to run a captive power plant at the factory site.

LafargeHolcim was earlier paying gas tariff in line with the GSA signed between the JGTDSL and the then Lafarge Surma Cement Ltd 15 years ago in January 2003. It has been paying Tk 7.91 per cubic metre as gas tariff against its

gas consumption from the JGTDSL, which was the ceiling price at US\$2.8 per Mcf (1,000 cubic feet) as set in the GSA between the two companies.

As per the court verdict, the cement factory will have to pay almost double tariff at Tk 13.85 per cubic metre to run its captive power plant and Tk 10.70 per cubic metre for gas consumption in the cement factory. Meanwhile in a statement on Monday, the company said its board of directors passed a resolution on Sunday to comply with the court's order.

Subject to fulfilment of the conditions, it said, JGTDSL shall maintain supply of gas to the company under the GSA. Earlier on February 3 last, the board approved invocation of clause 21 of the GSA to commence arbitration proceeding with JGTDSL as a dispute has arisen between the parties in relation to the price of gas.

It said the order has been passed by the Appellate Division in the context of arbitration application no. 5 of 2021 filed by the company before the High Court Division for interim protection so that the gas supply is not stopped during pendency of the arbitration proceeding. The dispute between the parties under the GSA will be determined by the Arbitration Tribunal, and the court's order will not have any impact on the merits of the dispute that will be adjudicated by the Arbitration Tribunal.
